

Human-readable metadata/
Roller feed area

The diagram illustrates a document layout with several distinct regions. At the top is a large light blue area labeled 'Human-readable metadata/Roller feed area'. Below this is a grey rectangular block. The main body of the document is a large orange area containing a grid of black squares. A green horizontal bar labeled 'Length header' is positioned above the orange area. A pink horizontal bar labeled 'Sync terminator' is at the bottom. A vertical dashed grey line runs through the orange area. The entire diagram is set against a light grey background.

Length header
